Business Overview

Priya Handloom Exports Pvt. Ltd. is a Surat-based textile manufacturer and exporter specialising in handloom sarees, dress materials, and home furnishing fabrics. Founded in 2015 by Ms. Priya Desai, the company works with 120 artisan weaver families in the Surat and Bhuj clusters. Products are exported to the UAE, USA, and UK through direct buyer relationships and e-commerce platforms. The company employs 35 staff and reported consistent growth over the past four years.

For FY 2024-25, total revenue (total income) was Rs. 31,50,000, and the company earned a net profit of Rs. 2,52,000, a net profit margin of 8.0 percent. While profitability remains positive, margin pressure from rising raw material costs and currency fluctuations has been noted. Total assets stood at Rs. 28,00,000 against total liabilities of Rs. 18,00,000.

Management Discussion and Analysis

The current ratio of 1.27x indicates that total current assets of Rs. 14,00,000 adequately cover total current liabilities of Rs. 11,00,000, though the ratio has declined from 1.41x in the prior year. The management is actively pursuing faster collection of export debtors (trade receivables of Rs. 7,20,000) to improve working capital turnover.

The debt-to-equity ratio of 1.80x reflects the leveraged nature of the business. Total liabilities of Rs. 18,00,000 include a SIDBI term loan of Rs. 7,00,000 taken for loom modernisation in FY 2022, and a packing credit facility of Rs. 4,00,000 extended by State Bank of India for pre-shipment financing. Total equity stands at Rs. 10,00,000.

Net profit margin compression from 10.0% to 8.0% is primarily attributable to the 19.9% increase in yarn and raw silk costs, partially offset by a 12.5% increase in total revenue. The company has initiated negotiations with its UAE buyer for a price revision of 7-10% effective Q1 FY 2025-26, which is expected to restore margins to the 10-12% band.

Total assets have grown from Rs. 25,00,000 to Rs. 28,00,000, reflecting Rs. 1,58,000 in capital expenditure on new handloom equipment and the growth in trade receivables from export orders booked in March 2025.
